CHINA FROM BELOW

CRITICAL ANALYSIS & SOCIAL STRUGGLES

Ralf Ruckus, Daniel Reineke,
Jule Pfeffer, and Kevin Lin (eds.)

This book has come out in 2023. The authors cover key issues necessary for “rethinking” China in the 21st century.

These issues include China’s feminist movement, tech worker organizing, environmental politics, state repression in Xinjiang, the Left in Taiwan, and right-wing factions in Hong Kong.

Further contributions discuss Chinese investments and labor struggles in Indonesia, China’s turbulent social history after 1949, and the contested reform process since 1978 that led to the country’s transition to capitalism.
